"Excellence is not a destination;
it is a continuous journey that never ends." – Brian Tracy

The months from April to July mark a season of celebration across the Seshadripuram Group of Institutions—a time when the sincere efforts of our students, the dedicated guidance of our faculty, and the unwavering support of parents find expression in outstanding academic outcomes. This year, our institutions recorded an impressive 116 ranks, comprising 87 ranks in pre-university examinations, 17 ranks at the Undergraduate level, 6 ranks at the Postgraduate level, and 6 ranks in the SSLC examinations. Adding to these accomplishments are numerous students who secured scores above 90%, reflecting not only exceptional individual achievement but also the collective strength of our academic ecosystem.

The quarter also brought distinction to the Seshadripuram family through significant recognitions conferred upon Nadoja Dr. Wooday P. Krishna, Honorary General Secretary of the Trust, who received the "For the Sake of Honour Award" for Rotary Year 2025–26 and the "Jnana Daasoha Rathna Award 2026" from Basava Samithi.

Among the sporting achievements of the quarter was the selection of Naija Rajesh Hegde of SICM to the Indian U-18 Volleyball Team for the World School Games in China, as the sole representative from Karnataka.

Among the many milestones of this quarter, the inaugural Seshadripuram Expo stands out as a landmark initiative. By showcasing the rich spectrum of educational opportunities offered across the Trust—from Kindergarten to Doctoral studies—the Expo reflected the breadth, strength, and vision of the Seshadripuram Educational Trust. The event was met with enthusiastic participation and appreciation, reaffirming the Trust's enduring commitment to educational excellence and community engagement.

Beyond academic accomplishments, the quarter was enriched by vibrant Annual Day celebrations, prize distribution ceremonies, research achievements, sporting successes, NCC accolades, environmental awareness initiatives, cyclothons, and a wide spectrum of co-curricular activities for students to showcase their talents, leadership, creativity, social responsibility, and spirit of participation.
